

NIEUW BESCHREVEN CONTINENTALE MOLLUSKENSOORTEN (NEW TAXA: CONTINENTAL MOLLUSCS)

R.A. Bank

Newly described taxa (rubricated at the family level), with reference to the publications in which they were introduced. Ordered per family, families sorted alphabetically.

ACROLOXIDAE

Gerstfeldtiancylus ushunensis. Described by A. SHIROKAYA (2007, Zootaxa, 1466: 55-67) from Malye Olkhonskie Vorota, Ushun Bay, Lake Baikal (Russia).

ASSIMINEIDAE

Assiminea mesopotamica. Described by P. GLÖER, M.D. NASER & A. YASSER (2006, Mollusca, 25 (1): 3-6) from Shatt Al-Arab-Fao (Arabian Gulf, Iraq).

Conassiminea. New genus described by H. FUKUDA & W.F. PONDER (2006, Journal of Molluscan Studies, 72 (1): 39-52) for *Conassiminea studderti* FUKUDA & PONDER, 2006.

Conassiminea studderti and *C. zheni*. Described by H. FUKUDA & W.F. PONDER (2006, Journal of Molluscan Studies, 72 (1): 39-52) from estuarine habitats in southeastern Australia (New South Wales, Tasmania and Victoria).

BITHYNIIDAE

Bithynia radomani, *B. zeta* and *B. skadarskii*. Described by P. GLÖER & V. PEŠIĆ (2006, Mollusca, 25 (1): 7-12) from the north-western part of Skadar Lake (Montenegro).

Pseudobithynia kirka, *P. panetolis* and *P. trichonis*. Described by P. GLÖER, C. ALBRECHT & T. WILKE (2007, Mollusca, 25 (1): 13-22) from Krka National Park (Croatia), Panetolion, Lake Trichonis (Greece) and surroundings Lake Trichonis (Greece), respectively.

Bithynia kastorias. Described by P. GLÖER, C. ALBRECHT & T. WILKE (2007, Mollusca, 25 (1): 13-22) from Kastorias Lake (Greece).

Bithynia xishanensis. Described by H. PAN & X. ZHU (2007, Cretaceous Research, 28 (2): 215-224) from the Xiazhuang Formation near Xishan, west of Beijing (China).

Bithynia majorcina. Described by P. GLÖER & E. ROLÁN (2007, in K.-H. BECKMANN, Die Land- und Süßwassermollusken der Balearischen Inseln: 159-162) from Torrent Son Jordi, Mallorca island (Spain).

Bithynia kobialkai, *B. nakeae* and *B. quintanaei*. Described by P. GLÖER & K.-H. BECKMANN (2007, in K.-H. BECKMANN, Die Land- und Süßwassermollusken der Balearischen Inseln: 163-170) from Mallorca island (Spain).

CAMAENIDAE

Amphidromus (Amphidromus) atricalosus classiaris and *A. (A.) schomburgki dextrochlorus*. Described by C. SUTCHARIT &

S. PANHA (2006, Journal of Molluscan Studies, 72 (1): 1-30) from Koch Tachai (Pangnga Province) and Ban Khok Klang (Sakonnakhon), respectively (Thailand).

CLAUSILIIDAE

Hemiphaedusa minutus. Described by K.-M. CHANG & A. TADA (2006, Bulletin of Malacology, 30: 9-16) from Tengchic, Kaohsiung County (Taiwan).

Leptacme cuongi, *Oospira (Oospira) duci* and *Oospira (Atractophaedusa) smithi*. Described by W.J.M. MAASSEN & E. GITTENBERGER (2007, Zoologische Mededelingen, 81 (10)): from Tonkin (northern Vietnam).

Idyla (Idyla) aydinensis. Described by A. ÖRSTAN (2007, Journal of Conchology, 39 (3): 329-334) from the Aydın mountains near Gökçirış (Turkey).

COCHLIPOIDAE

Heleobia robusta. Described by M.C. PONS DA SILVA & I.L. VEITENHEIMER-MENDES (2004, Iheringia, Sér. Zool., 94 (1): 89-94) from Rio Grande do Sul (Brazil).

DIPLOMMATINIDAE

Diplommata hayasakai. Described by K.-M. CHANG & A. TADA (2006, Bulletin of Malacology, 30: 43-50) from Taiwan.

ELLOBIIDAE

Proauricula elegans and *Mesochilina xiazhuangensis*. Described by H. PAN & X. ZHU (2007, Cretaceous Research, 28 (2): 215-224) from the Xiazhuang Formation near Xishan, west of Beijing (China).

EUCONULIDAE

Guppya coneyi. Described by K.-M. CHANG & W.L. WU (2006, Bulletin of Malacology, 30: 1-8) from Tailuku Gorge, Hualien County (Taiwan).

FILHOLIIDAE

Triptychia (Triptychia) kadolskyi and *T. (T.) martinii*. Described by T. SCHNABEL (2007, Archiv für Molluskenkunde, 136 (1): 25-57) from the Oligocene of Saint-André near Marseille (France) and Oberleichtersbach near Bad Brückenau (Germany), respectively.

HELICODONTIDAE

Darderia. New genus described by C.R. ALTABA (2006, Animal Biodiversity and Conservation, 29 (2): 195-200) for *Darderia bellverica* ALTABA, 2006.

Darderia bellverica. Described by C.R. ALTABA (2006, Animal Biodiversity and Conservation, 29 (2): 195-200) from pre-

human paleosoils at Bellver hill in the island of Mallorca (Spain).

HELICIDAE

Hemicycla (Hemicycla) laurijona and *H. (H.) fulgida*. Described by M.R. ALONSO & M. IBÁÑEZ (2007, Zootaxa, 1482: 1-23) from Tenerife and La Gomera, respectively (Canary Islands, Spain).

HYDROBIIDAE

Fluviopupa vakamalolo, *F. daunivucu*, *F. mekeniyaqona*, *F. mekewesi*, *F. derua*, *F. irinimeke*, *F. seasea*, *F. lalinimeke* and *F. lali*. Described by M. HAASE, W.F. PONDER & P. BOUCHET (2006, Journal of Molluscan studies, 72 (2): 119-136) from Fiji (Viti Levu and Vanua Levu).

Taylorconcha insperata. Described by R. HERSHLER, H.-P. LIU, T.J. FREST, E.J. JOHANNES & W.H. CLARK (2006, Journal of Molluscan Studies, 72 (2): 167-177) from middle Owyhee River and lower Snake River (Hells Canyon, Oregon, USA).

Radomaniola. Described by M. SZAROWSKA (2006, Folia Malacologica, 14 (3): 99-168) as a new name for *Orientalina RADOMAN*, 1978 (non KOLOSNIITSYNA, 1973 = *Ostracoda*).

Pseudamnicola beckmanni and *P. granjaensis*. Described by P. GLÖER & M.L. ZETTLER (2007, in K.-H. BECKMANN, Die Land- und Süßwassermollusken der Balearischen Inseln: 171-174) from Mallorca island (Spain).

Iglica velkovrhi. Described by W. DE MATTIA (2007, Mollusca, 25 (1): 27-31) from Krško (Slovenija).

Boetersiella wolffi. Described by H.D. BOETERS & P. GLÖER (2007, Heldia, 5 (3): 85-88, pl. 12) from the Sierra de Aracena, Huelva (Spain).

Islamia archeducis. Described by H.D. BOETERS & K.-H. BECKMANN (2007, in: K.-H. BECKMANN: Die Land- und Süßwassermollusken der Balearischen Inseln. Hackenheim (ConchBooks): 175-177) from Mallorca, Balearic Islands (Spain).

LYMNAEIDAE

Radix lilli. Described by P. GLÖER & K.-H. BECKMANN (2007, in K.-H. BECKMANN, Die Land- und Süßwassermollusken der Balearischen Inseln: 163-170) from Esporles, Mallorca island (Spain).

OXYCHILIDAE

Oxychilus (Oxychilus) beckmanni. Described by G. FALKNER (2007, in: K.-H. BECKMANN: Die Land- und Süßwassermollusken der Balearischen Inseln. Hackenheim: 179-185) from Mallorca (Spain).

PHYSIDAE

Physa bacca. Described by H. PAN & X. ZHU (2007, Cretaceous Research, 28 (2): 215-224) from the Xiazhuang Formation near Xishan, west of Beijing (China).

PLANORBIDAE

BIOMPHALARIA EDISONI. Described by V.E. ESTRADA, L.E. VELÁSQUEZ, R.L. CALDEIRA, E.E. BEJARANO, W. ROJAS & O.S. CARVALHO (2006, Journal of Molluscan Studies, 72: 221-228) from Colombia.

STREPTAXIDAE

Gulella streptostelopsis. Described by A.C. VAN BRUGGEN (2007, Zoologische Mededelingen, 81 (1): 1-9) from Malawi (scattered throughout the country).

VERTIGINIDAE

Vertigo malleata. Described by B.F. COLES & J.C. NEKOLA (2007, The Nautilus, 121 (1): 17-28) from the Atlantic and Gulf coastal plains of the eastern USA.

Vertigo ultimathule. Described by T. VON PROSCHWITZ (2007, Helda, 5 (3): 73-74, pl. 9) from Mount Pältsan area, Lapland (Sweden).

ZAPTYCHIIDAE

Zaptychius costatus. Described by H. PAN & X. ZHU (2007, Cretaceous Research, 28 (2): 215-224) from the Xiazhuang Formation near Xishan, west of Beijing (China).
