

NIEUW BESCHREVEN CONTINENTALE MOLLUSKENSOORTEN (NEW TAXA: CONTINENTAL MOLLUSCS)

R.A. Bank

Newly described species, rubricated at the family levels, with references to the malacological papers in which they were introduced.

BIVALVIA

- * *Euglesa (Casertiana) mongolica*. Described by SLUGINA & STAROBOGATOV (2001, Ruthenica, 11 (1): 43-45) from Lake Hövsgöl, Mongolia.
- * *Pisidium chiquitanum*. Described by IRUARTE (2001, The Nautilus, 115 (2): 50-54) from Comarapa, Manuel Caballero Province, Bolivia.

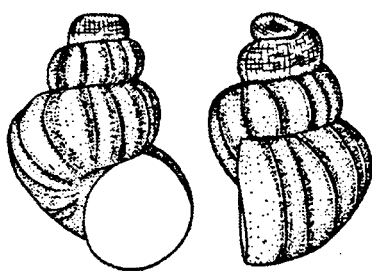

GASTROPODA

ANADENIIDAE

- * *Anadenus (Anadenus) nepalensis*. Described by WIKTOR (2001, Folia Malacologica, 9 (1): 3-26) from the environs of Pokhara and the provinces Bagmati and Kamali (Nepal).

BENEDICTIIDAE

- * *Yaroslawiella* (new genus) and *Yaroslawiella eximia* (new species). Described by SITNIKOVA (2001, Zoologicheskii Zhurnal, 80 (4): 499-502) from Lake Baikal, Russia.

Yaroslawiella eximia - SITNIKOVA, 2001
(Zool. Zhurn., 80: fig. 1)

BITHYNIIDAE

- * *Opisthorchophorus abakumovae*. Described by ANDREEVA & STAROBOGATOV (2001, Ruthenica, 11 (1): 77-78) from Lake Krivoye.

BRADYBAENIIDAE

- * *Trichocathaica foliosquamosa*. Described by WU (2001, Acta Zootaxonomica Sinica, 26 (3): 292-296) from Lijiexiang, Zhouqu County, Gansu province.

CAMAENIIDAE

- * *Coniglobus nux litus*. Described by CHANG & TADA (2000, Bulletin of Malacology, 24: 7-12) from the sea coast

of Hualien and Taitang Counties, south-east Taiwan.

CHAROPIDAE

- * Three subfamilies (Therapsinae, Flammiconchinae and Ranfurlyinae) described by SCHILEYKO (2001, Treatise on recent terrestrial pulmonate molluscs, 7: 881-1034).

CHONDRINIIDAE

- * *Abida escudiei*. Described by GENIEZ & BERTRAND (2001, Documents Malacologiques, 2: 27-29) from depositions of the river Aude near Villedubert (France).

CLAUSILIIDAE

- * *Hemiphaedusa gochishanensis*. Described by CHANG (1999, Bulletin of Malacology, 23: 7-14) from Wuchushan, Wuhong District, Hsinchu County, northern Taiwan.
- * *Oospira (Oospira) pyknosoma*. Described by GITTENBERGER & VERMEULEN (2001, Basteria, 65 (4-6): 123-129) from the province of Haiphong, Vietnam.

CYCLOPHORIDAE

- * *Alycaeus somnueki*. Described by PANHA & PATAMAKANTHIN (2001, Of Sea and Shore, 23 (4): 184-190) from the Ao Luk limestone area, Krabi Province, southern Thailand.

DIPLOMMATINIIDAE

- * *Opisthostoma (Plectostoma) sinyumensis*, *O. (P.) christae*, *Arinia jensi* and *A. panhai*. Described by MAASSEN (2001, Basteria, 65 (1-3): 51-56) from Peninsular Malaysia (first three species) and Thailand (last species).

ENIDAE

- * *Ena menkhorsti*. Described by HAUSDORF & BANK (2001, Journal of Natural History, 35 (11): 1634-1635) from the eastern Pontic region of Turkey.
- * *Ena dazimonensis*. Described by HAUSDORF (2001, Journal of Natural History, 35 (11): 1627-1638) from Tokat, Turkey.
- * *Turanena bilgini*. Described by SCHÜTT & SESEN (in SCHÜTT, 2001, Die türkischen Landschnecken, 3. Auflage: 86) from the provinces Diyarbakir and Siirt (Turkey).

GASTROCOPTIDAE

- * *Gastrocopta (Gastrocopta) rogersensis*. Described by NEKOLA & COLES (2001, The Nautilus, 115 (3): 105-114) from midwestern USA.

HYDROBIIDAE

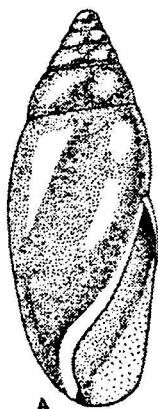

- * *Heraulitia*. A new genus described by BODON, MANGANELLI & GIUSTI (2001, Malacologia, 43 (1-2): 103-215) from the Département Hérault (France) (type species: *Valvata exilis* PALADILHE, 1867).
- * *Pseudotryonia* and *Ipnobius*. Two new genera described by HERSHLER (2001, Smithsonian Contributions to Zoology, 612: 1-53) (type species: *Tryonia alamosae* TAYLOR 1987 and *Tryonia robusta* HERSHLER 1989, respectively).
- * *Prososthenia augusti*, *P. paulae* and *P. tassoii*. Described by ESU & GIROTTI (2001, Bollettino della Società Paleontologica Italiana, 40 (2): 179-184) from Pliocene sediments of Umbria (Central Italy).
- * *Bythinella occasiuncula*. Described by BOETERS & FALKNER (2001, Heldia, 3 (2-3): 51-52) from the province Izmir, Turkey.

HYGROMIIDAE

- * *Circassina (Circassina) lasistanica*, *Circassina (Abchasohela) pergranulata* and *Circassina (Abchasohela) septentrionalis*. Described by HAUSDORF (2001, Journal of Molluscan Studies, 67 (3): 425-446) from Vilayet Artvin (Turkey), surroundings of Gagra (Georgia) and the northwestern most part of the Caucasus (Russia), respectively.
- * *Monacha (Monacha) spiroxia atik*. Described by SCHÜTT (2001, Die türkischen Landschnecken, 3. Auflage: 430) from Atik (Vilayet Hatay, Turkey).
- * *Caucasocressa schmalzi*, *C. callosa* and *C. planospira*. Described by HAUSDORF & FALKNER (2001, Heldia, 3 (2-3): 45-48) from Demirkent (Vilayet Artvin, Turkey).
- * *Caucasocressa corrugosa* and *C. perspectiva*. Described by FALKNER (2001, Heldia, 3 (2-3): 48-49) from Demirkent (Vilayet Artvin, Turkey).

MOITESSIERIIDAE

- * *Moitessieria nezi*, *Palaospeum bessoni rebenacensis* and *?Palaospeum nanum*. Described by BOETERS & BERTRAND (2001, Basteria, 65 (1-3): 1-15) from the area of Rébenacq, Pyrénées-Atlantiques, France.
- * *Moitessieria wienini*. Described by GIRARDI (2001, Documents Malacologiques, 2: 31-38) from a small karstic area near Puéchabon in the Hérault basin (France).
- * *Moitessieria fontainei*. Described by BERTRAND (2001, Documents Malacologiques, 2: 39-42) from Ustou and Seix (Ariège, France).

- SCHILEYKO, 2000
(Treatise pulmonate molluscs, 6: fig. 1127)

OLEACINIDAE

- * One genus (*Cuboleacina*) described by SCHILEYKO (2000, Treatise on recent terrestrial pulmonate molluscs, 6: 731-880).

PLANORBIDAE

- * *Ceratophallus yesimit*. Described by BROWN (2001, Journal of Zoology, 255 (1): 55-82) from the Rift Valley of Ethiopia (Lake Zwai and Awash River).

PRISTILOMATIDAE

- * *Gollumia applanata*. Described by SCHÜTT (2001, Die türkischen Landschnecken, 3. Auflage: 184) from Çennet Çehennem and Kanlidivane (Vilayet İçel, Turkey).

PUNCTIDAE

- * *Punctum adami*. Described by VAN BRUGGEN & VAN GOETHEM (2001, Novapex, 2 (3): 97-108) from the northern sector of the Virunga National Park (D.R. Congo).

SPIRAXIDAE

- * One subfamily (Micromeninae) described by SCHILEYKO (2000, Treatise on recent terrestrial pulmonate molluscs, 6: 731-880).

STREPTAXIDAE

- * *Gulella sursum*. Described by VAN BRUGGEN (2001, Basteria, 65 (1-3): 27-32) from the eastern rim of the Nyika Plateau, Malawi.
- * *Gulella hildae*. Described by VAN BRUGGEN (2001, Basteria, 65 (4-6): 101-104) from the Lujeri Estate, Mulanje District, southern Malawi.
- * Two subfamilies (Macroniinae and Odonartemoninae) and three genera (*Seychellaxis*, *Glabrennea* and *Maurennea*) described by SCHILEYKO (2000, Treatise on recent terrestrial pulmonate molluscs, 6: 731-880).
