

GASTROPODA

CHAROPIDAE

- *Trachycystis montissalinorum*. Described by A.C. van Bruggen (2002, Zoologische Mededelingen, 76 (8): 83-88) from the Hanglip Forest near Louis Trichardt, Soutpansberg complex, Northern Province (South Africa).

CLAUSILIIDAE

- *Pseudohemiphaedusa*, *Loosjesia*, *Montiphaedusa* and *Dendrophaedusa*. New (sub)genera described by H. Nordsieck (2002, Basteria, 66 (1-3): 85-100) from South East Asia.
- *Hemiphaedusa* (*Selenophaedusa*) *bavayi* and *Juttingia* (*Pseudohemiphaedusa*) *loosjesi*. Described by H. Nordsieck (2002, Basteria, 66 (1-3): 85-100) from Tonkin (Vietnam), and Pagaralam near Lahat (southern Sumatra), respectively.

CYCLOPHORIDAE

- *Owengriffithsius* new genus and the new species *O. analamerae*, *O. capdambrae*, *O. c. ankaranae*, *O. griffithsi*, *O. namorakae*, *O. orchidae* and *O. tsaratananae*. Described by K.C. Emberton (2002, The Veliger, 45 (3): 203-217) from northern Madagascar.

NIEUW BESCHREVEN CONTINENTALE MOLLUSKENSOORTEN (NEW TAXA: CONTINENTAL MOLLUSCS)

R.A. Bank

Newly described species (rubricated at the family level), with references to the malacological papers in which they were introduced.

ENIDAE

- *Coccoderma semmelinki*. Described by W.J.M. Maassen (2002, Basteria, 66 (1-3): 83-84) from Larantoea, island Flores, Indonesia.

GASTROCOPTIDAE

- *Gastrocopta fulongensis*. Described by D.-N. Chen, G.-Q. Zhang & W.-H. Zhang (2002, Acta Zootaxonomica Sinica, 27 (3): 453-455) from Fulong Town, Fangcheng County, Zhuang Autonomous Region of Guangxi (China).

HELICARIONIDAE

- *Kalidos griffithshauchleri*. Described by K.C. Emberton (2002, The Veliger, 45 (3): 259-261) from the Bemaraha Reserve and its karstic vicinity, Madagascar.

HYDROBIIDAE

- *Floridobia* new genus. Described by F.G. Thompson & R. Hershler (2002, The Veliger, 45 (3): 269-271) from the Eastern United States.

HYGROMIIDAE

- *Moreletina* new genus. Described by A. de Frias Martins (2002, Journal of Molluscan Studies, 68 (3): 205-215) from Santa Maria, Açores (Portugal).

PLANORBIDAE

- *Plesiophysa dolichomastix*. Described by W.L. Paraense (2002, Memórias do Instituto Oswaldo Cruz, 97 (4): 505-508) from Lagoa da Pedra, municipality of Santa Rosa, state of Goiás, Brazil.

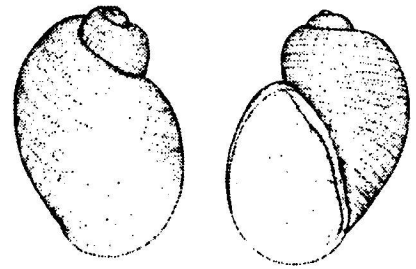

Fig. 2. W. Paraense, 2002, Mem. Inst. Oswaldo Cruz, 97: 505-508 (figure 1)

SUBULINIDAE

- *Curvella myrmecophila* and *C. usambarica*. Described by B. Verdcourt (2002, Basteria, 66 (1-3): 107-112) from the East Usambara Mts., Tanzania.
